

About Us

Aware of the importance of media and internet in nowadays, in 2008, Tatung University established the Department of Media Design. The department provides the most advanced high quality teaching in media design. The courses include the digital design, visual art and web technology. The students in this department can develop the design skill, critical thinking, and know how to perform a design job. From 2011, the department offers two programs, interactive media and digital game, for students' future needs.
